Experience

AI-SSISTANT Bavaria, Germany – Software Engineer (Working Student)

Sep 2023 – Present

- Crafted intuitive UIs, enhancing user satisfaction by 25% as measured by feedback surveys.
- Implemented React, TypeScript, NodeJS, and ExpressJS to create functional web applications, resulting in approximately 25% improvement in performance metrics.
- Spearheaded over 60% of ideas during brainstorming sessions, shaping the product and maximizing potential market effectiveness.
- Collaborated to optimize code quality, conduct reviews, and implement continuous integration, reducing post-release bugs by 25% and accelerating project milestones by 30%.
- Resolved technical issues to guarantee the seamless and efficient operation of web applications.
- Provided insights on technical decisions, architectural designs, and development strategies.

Multilynx Lahore, Pakistan - Associate Software Engineer

Jan 2021 – Sep 2022

- Conducted 50+ requirement elicitation sessions for comprehensive project understanding.
- Integrated RESTful APIs for seamless data exchange and established endpoints for over 4 web applications.
- Engineered high-performance web applications using HTML, CSS, JavaScript, and Python, with 100% on-time delivery employing Agile methodologies.
- Improved project efficiency by 15% through cross-functional collaboration and 30% faster deployment with Docker.
- Automated testing with Selenium, reducing time by 40%, and increased development efficiency by 15%.
- Mentored 5 peers, contributing to a 10% overall team efficiency increase, while setting up Git for version control and ensuring 98% code quality through detailed reviews.
- Implemented analytics tools for continuous monitoring and data visualization, resulting in a 15% increase in conversion rates and a 10% revenue growth.
- Resolved web application bugs, leading to a 20% decrease in user-reported issues and enhancing overall application stability.

Education

FAU Erlangen, Germany - Master of Science, Data Science

Oct 2022 – Present

Major: Artificial Intelligence / Machine Learning.

GCU Lahore, Pakistan - Bachelor of Science, Computer Science

Graduated: Sep 2021

CGPA: 3.05/4

Final Year Project: 'E-Medix', A Python based web application hosted on Google Cloud that ensured a secure and reliable communication between patients and doctors, allowing efficient diagnosis and treatment while minimizing the risk of virus transmission during the Covid 19 pandemic.

Projects

Flaty

- Developed a bilingual apartment search web app using React (TypeScript) and Node.js/Express.js, Dockerized for scalability and performance.

TaxiAir

- Orchestrated the end-to-end development of TaxiAir, designing user-friendly interfaces and deploying on the cloud for efficient taxi booking.

AI-SSISTANT

- Programmed a real-time chat app in React with WebSocket integration for live messaging and AI responses, prioritizing user interaction.

Railway Route Optimization

- Optimized Indian railway routes using Dijkstra's algorithms for stops, distance, price, and time as cost functions, achieving a 78.5/80 score.
- Employed Pandas for data manipulation, focusing on the shortest path between two stations across four metrics.

Skills

Front-End Development: ReactJS, JavaScript, TypeScript, HTML, CSS, Bootstrap, jQuery, Redux, Responsive Design, Figma, SEO.

Back-End Development: Node JS, Express JS, Python, REST, Microservices Architecture.

Database Management: MySQL, PostgreSQL, MongoDB.

DevOps & Version Control: Git, Docker, Google Cloud Platform.

Testing & Performance: Selenium, Postman, Website Performance Auditing & Optimization.

Software Development Practices: Agile, Scrum, SDLC, OOP, Algorithm Design, Data Structures, Relational Schema, Memory Management, Scheduling, Multi-Threading.

Security & Quality Assurance: Unit Testing, Integration Testing.

Data Analysis & Reporting: Power BI, Google Analytics.

Project Management: Jira, Requirement Elicitation, SRS Documentation, Workflow Design.

Soft Skills: Communication, Cross-Cultural Competence, Confidence, Flexibility, Self-Management.

Co-Curricular

Vice President (Sep 2020 – Sep 2021)
GCU-ACM Student Chapter

Languages

English: Professional Proficiency
German: Basic
